OUR SERVICES AT A GLANCE

401(k)/IRA Rollover Funding

The Rainmaker Plan® we pioneered decades ago allows you to use the funds in your retirement plan to purchase or expand your business while eliminating debt — tax-deferred and penalty-free.

Tax Advantaged Initial Capitalization Strategies

The ROBS Plus Plan® allows you to create a structure that will greatly minimize or eliminate the taxes on gains when selling the business.**

SBA Loans

One of the most popular loan options for small businesses. Benetrends simplifies the complex loan process, leveraging strong relationships with lenders to achieve one of the highest approval ratings in the industry.

Equipment Leasing

A simple application with a 5-day approval process, low up-front costs, and only 1st and last payment due at signing.

Unsecured QuickStart Loans

Provides a fast and flexible funding process for entrepreneurs with strong credit, offering loans from \$50k to \$250k with 7 to 10-year terms, no real estate collateral, and no impact on personal credit.

THE RAINMAKER PLAN[®]

Navigate ROBS 401(k) small business funding with help from the experts at Benetrends. We will work with you every step of the way, from the free funding consultation to the day you open your business doors and beyond! We are here to see your business succeed and create a lasting partnership for success.

01

Set Up a C-Corporation

The process begins with establishing a new corporation using the proper legal structure to support the establishment and operation of the company's qualified retirement plan.

02

Design a New Qualified Retirement Plan

To avoid early withdrawal penalties and preserve tax-deferred status, a new retirement plan is created for which you'll move your existing funds. We will customize your plan, taking into account your business needs.

03

Transfer Retirement Funds Into the New Plan

If you're rolling over funds from a 401 (k), your plan custodian will work with you to fill out temporary IRA documents. If funds are being rolled from an existing IRA, your plan custodian will initiate the movement of those funds.

04

Use the Retirement Plan's Funds for Your Business

The rollover funds can now be invested in the newly formed C Corporation by purchasing stock in the corporation. You have the capital to start, purchase or recapitalize your new small business or franchise.

Acquire or later grow your business

Better wealth protection from personal risk

Contributions are exempt from payroll taxes

Get funding in as little as 10 business days

Tax-deferred, penalty and debt-free

Reduces the risk of double taxation

THE PEACE OF MIND OPTION

The NO COST, NO RISK Way to Reduce Time To Access Funds

The full Rainmaker Plan® process can take up to 3-4 weeks from start to finish (this includes the time it takes for incorporation, movement of funds, and the design of the new plan). Sometimes the process can take longer if the current custodian of your retirement plan delays transferring your retirement funds to the new plan. That's where the Peace of Mind Program can help.

The Peace of Mind Program allows you to begin the transfer process, at no cost to you, prior to completing the Rainmaker Process.

How it Works

1. Benetrends will help you set up an intermediary Rollover IRA for your funds to await further instruction. This allows the funds to be ready FASTER!
2. Should you decide to move forward with a business and engage with Benetrends for the Rainmaker Plan®, your funds will be available to capitalize your business in no more than a few business days!
3. If, for any reason, you decide not to move forward with a business, you simply do nothing. The funds remain safely in the Intermediary Rollover IRA for any future investment decision you choose to make.

The Benefits

- Can reduce the time it takes to access your funds by up to 70%
- No cost or risk - you can walk away and owe nothing
- Effective when securing an SBA loan, since you can expedite the access of funds as you're waiting for the loan to be approved

ROBS PLUS®

A capitalization structure. Designed around an exit strategy.

Benetrends Financials' ROBS Plus® is an innovative cash injection program that allows clients to buy a business now and eliminate or minimize future taxes on gains on the sale of the business. The proceeds from the sale of the business can remain in the plan and continue to grow tax-free. When money is withdrawn, it will not be subject to federal or state taxes.
